G2 TechSoft

PERFORMANCE & MIGRATION TO JAVASCRIPT

Industry

Travel and hospitality industry

Client

Our client is in Canada. Operates a first-rate travel company; since 2004, they offer services like; booking. Flights, cruises, and provide vacation packages. As well they provide private label solutions partnering with other agencies.

Solution:

By understanding; the competitors and booming market in the industry. They built an online booking web application in the year 2013. So, they started surveying for the best web application development, partnering company. Thus, G2 TechSoft suggested the client revamp the online booking web application with the .Net development unit. Ultimately client needs to dilate the in-house resources; to compete with the latest trends.

Business Challenge

The client has the older web application version that needed migration to the latest; version. Essentially should benefit our client business by fulfilling the end user's assurance, by elevating the brand recognition to them. Since it is a heavily competitive market, the client has found G2 TechSoft as a reputable development company; to redevelop the web

web application as we have plenty of experience in .Net development to provide definitive expertise.

Solution Delivered

G2 TechSoft has started the complete migration to the latest version.

To redevelop. Web application SPA team has introduced with efficient latest technologies and designs.

The core operation is to create registered APIs for the website to request information like the latest deals and offers.; Provided by the agency.

The development team initiated the ASP.NET Web API framework. Which efficiently builds Umbrella API with other APIs. To give primary; access to the client partnered agencies.

Initially, the project was to redevelop the website and provide brand visibility; to the customer. The client is wholly satisfied with the service and accepted for full-stack development and support. Provided; to this online web application.

Right now. G2 provides a constitutive service to the client without any hindrance.
